STEEL, IRON PRODUCTION UP

GIVES DATA ON STEEL, IRON OUTPUT -- Belgrade, Rad, 14 Nov 50

Yugoslav raw steel production, according to the open-hearth method, was 116 percent in 1948 (1947 = 100) and 126.7 percent in 1949. Electric steel production in 1948 was 204.3 percent (1947 = 100) and in 1949 was 268.7 percent. Pig iron production in 1948 was 105.8 percent and in 1949 was 118.3 percent (1947 = 100).

Nonferrous metallurgy production in 1946 was 111.8 percent (1939 = 100), 141.8 percent in 1947, 160.9 percent in 1948, 201.3 percent in 1949, and 251.7 percent according to the 1950 plan.

METALLURGICAL ENTERPRISES INCREASE PRODUCTION -- Belgrade, Borba, 14 Nov 50

Last year's steel production in Yugoslav open-hearth furnaces was 26.7 percent greater than in 1947, while the production of pig iron was 18.3 percent greater and that of electric steel was 2.5 times greater. The production of steel castings in 1949 was twice as great as in 1947 and that of nonferrous products twice as great as in 1939.

This year's production of nonferrous products will be 2.5 times as great as in 1949.

NEW TEMPERED-CASTINGS FOUNDRY NEAR COMPLETION -- Belgrade, Borba, 15 Nov 50

Ljubljana, 14 November -- The new tempered-castings foundry of the "Titan" Factory in Kamnik is nearly completed. The production of this foundry will be five times as great as that of the old. The iron framework of the assembly line has been erected. A horizontal kiln has been installed already, and revolving furnaces are being installed. After the horizontal kiln is in operation, which is expected to be in December 1950, and all the other machinery is installed, the foundry will begin operation. It is expected to begin production at the beginning of 1951. It will produce castings for the machine-building agricultural machinery, automobile, railroad, power, and building industries.

SALVAGE 14,000 TONS OF IRON -- Ljubljana, Slovenski Porocevlaec, 10 Nov 50

The "Odpad" Enterprise in Ljubljana salvaged at total of 14,000 tons of scrap iron this year. Among other things, the enterprise salvaged the bridge in Cmurek near Radgona and the bridge over the Sava River near Zagorje. The usable parts of the bridges were sent to various factories, while the unusable parts were sent to the Ironworks in Jesenice as scrap iron. The bridge at Cmurek yielded 80 tons of scrap iron and the bridge at Zagorje yielded 100 tons.
